FACT SHEET

TO FILE NO. 17-18/074

If resolutions are adopted by the Eau Claire and Chippewa County Boards, the fifth five-year *Airport Ownership & Operation Agreement* will begin January 1, 2019. The current agreement, for the period 2014-2018 provided for a 1% increase in 2014, 2016 and 2018. The proposed agreement for the period of 2019-2020 provides for a 1% increase in 2021 and in 2023.

This agreement funds a small amount of operating expense, but a majority of the funds are used for capital improvement expenses at the Airport. No additional annual funds are appropriated by the Counties beyond what is included in the agreement. A multi-year agreement is important for the Airport to plan its multi-year capital projects and to be able to fund those projects when federal participation is available.

Chippewa Valley Regional Airport conducted a benchmarking analysis of peer airports 5 years ago as part of its 10 year Master Plan. The findings indicated that in general, airports that enplane less than 150,000 passengers per year experience difficulty generating sufficient revenue to cover expense. At the time of the study, CVRA's passenger related revenue (parking, car rentals, restaurant) exceeded the average for the benchmark airports at \$13.58 versus \$7.20 indicating that it was maximizing revenue within a reasonable rate structure for these concession activities; CVRA posted the third lowest level of operating expense compared to its peers or 16 percent below the average for all airports in the survey; CVRA overall staffing is less than peers with 6.0 FTEs compared to an average of 7.0 FTEs.

According to an Economic Impact report conducted by the Wisconsin Bureau of Aeronautics, communities that are readily accessible by air transportation are at a competitive advantage and may realize economic and quality of life benefits that can affect every citizen; Aviation contributes \$6.9 billion annually to the State's economy; the direct impact of the Chippewa Valley Regional Airport on the local economy in 2014 totaled 157 employees, a payroll of \$7.8 million and \$41.6 million in economic output; the \$4.3 million of air passenger spending in 2014 supported 70 additional jobs in the Chippewa Valley with a payroll of \$1.3 million.

The full versions of the peer airport benchmark analysis, the 2019-2023 airport capital improvement program, and the economic impact report are available upon request from the airport director.

Respectfully Submitted,
